

One of nature's most powerful remedies is also one of the most affordable...

What if you could save hundreds of dollars each year on everything from cleaning products to cold remedies?

Wouldn't it be nice to clean-out cupboards cluttered with household products containing toxic chemicals and replace them a single non-toxic, natural compound with ***over 500 practical uses?***

The amazing compound I am describing is an Altshop "All Time Bestseller" quite simply because – it works. Many of our customers buy it every month. It is loved in Norway and worldwide and has been used since the time of the ancient Egyptians.

What is it? Here are some clues from a few of its practical uses...

Stops indigestion...fights colds and flus... relieves aches and pains...

In medicine it is widely understood the pH (alkalinity or acidity) of bodily fluids and tissues is vital to a healthy state. Studies show the optimal pH of our bodies is from 7.35-7.45.

pH levels above or below this range have been linked to everything from indigestion to more serious problems like liver disease and cancer.

Good news – clinical studies show this incredible natural compound helps you maintain optimal pH by reducing acidity and freeing up more oxygen for cells to use.

In fact, recently in America, the National Institutes of Health granted two million dollars to University of Arizona researchers to study this compound in cancer therapy research.

More health and beauty benefits...

- Natural exfoliant removes dead cells and keeps skin looking young and healthy.
- Powerful natural deodorant neutralizes strong smelling acidic body odors instantly.

- Effective reliever of joint aches and sore muscles. In the case of sore muscles the cause is a buildup of lactic acid, in joints high uric acid. Use this compound in a hot bath to neutralize acid buildup and relieve pain.

Practical uses for just about everything under the sun...

If you're anything like me you've bought so many products over the years for cleaning and other household purposes that when need arises you can't remember which one to turn to.

Now you can clean out your cupboards with this multi-purpose solution that really works.

What else can you use it for?

- Apply it to your car windshield to repel rain.
- Eliminate pet odors, baby odors, mildewy dishrags and other unpleasant household smells.
- Keep cut flowers fresh longer by adding it to the water.
- Add it to the soil of acidic fruits and vegetables to make them sweeter.
- Mix with water and soak beans to make them less gassy.
- Use it to clean and soften laundry...naturally.
- Use it for polishing steel, chrome, silver.
- Clean just about anything better and easier.
- Mix in ordinary drinks to transform them into hydrating, performance enhancing sports drinks.
- Mix with water and soak fish fillets for an hour to remove fish smells.

But that's not all...

Remember...this one amazing product has over 500 practical uses you can access on our site. Better still this "natural wonder" is extremely affordable and a must have for any home.

Discover this magical compound now and order now at a savings of 20%. Don't wait, sale ends April first.
